

## S1E Portable Mainline Crawler

### Integrated Remote Inspection System

The S1E Portable Crawler System is an advanced and portable sewer video inspection system. This all-in-one system incorporates a motorized crawler, power rewind and feed assist cable drum. Utilizing a pan and tilt camera, the crawler has 360° rotation and 180° pan. Standard inspections range from 6" to 12" diameter and up to 18" with additional wheel set. With the S1E Portable Mainline Crawler, professional video results are guaranteed to ensure accuracy and efficiency in the field.
