TRENCHLESS PIPE REHABILITATION

Our rapid resin cures in rapid time

Complete a no-dig pipe repair in minutes

PipePatch Rapid : a no-dig pipe repair system that cures in approximately 30 minutes.

The Rapid PipePatch Repair kit has been developed to meet the demands of our customers and the industry. At Source One Environmental, we're constantly striving to develop a product range that makes our customers' lives easier. PipePatch kits are engineered to ensure guess- free work, with all component parts included, such as protective work

surface, protective gloves, cut-to-size fiberglass mat, packer protection sleeves, tie secures, spreader and now, the new two-part ready to mix rapid resin bag. The rapid resin cures in approximately 30 minutes, meaning PipePatch no-dig pipe repairs can be completed quicker than ever.

Benefits

- Kitted system containing all components
- Ideal for improving efficiency
- Quick cure time
- Unique pre-measured resin bag guarantees correct mix
- Lowers cost of labor
- Trenchless point repair technology

Technical Specifications

- At 68°F, the working time is 6-7 minutes, with a cure time of approximately 30 minutes
- Lower temperatures extend working and cure time
- Higher temperatures reduce working and cure time
- The working and cure time starts when the resin is mixed
