

TRENCHLESS PIPE REHABILITATION

S1E Reinstatement & Drain Cleaning Equipment

Carbide and stainless steel tools

S1E Reinstatement and Drain Cleaning Equipment : tools to reinstate, cut and clean pipelines and drainage systems

S1E's reinstatement tools offer customers unique lateral cutters and drain cleaning equipment to break through the toughest pipe materials and obstructions. Our tools are made of the highest quality of stainless steel or carbide and offer a cost-effective solution that allows contractors to use the equipment over and over again. The exceptional design which gives our tools a long lifespan and durability to withstand extreme conditions.

With the ability to open and clean pipe branches quickly, the tools do not harm the original diameter of the pipe. The tools work great to clean lines and is a necessity for trenchless customers when preparing lines for repair, as well as correcting and repairing faulty trenchless installations. Additionally, S1E offers overshot pipe cutters, collapsed line drills, and a full line of cutters, chain knockers and brushes.

Benefits
